Here's what one Inner Success Circle Member has to say...

"I really enjoy being a part of Marty Marsh's Inner Success Circle. It's very grounding to start my week by joining a trusted circle of fellow heart-centered entrepreneurs. Not only do we share about our businesses, we get to know each other personally as well. The calls are succinct, supportive, and motivating—my fellow soul proprietors inspire me! Plus, having a private call each month with Marty helps keep me focused and grounded. I recommend the ISC to any business owner who wants a supportive program—for themselves personally, and for their business." — Christine Clifton, Mindful Business Matters, New Jersey

Dear Soul Proprietor...

*A*s I've navigated the turbulent waters of a variety of business and marketing coaching programs, one thing I've discovered is that too many of these program promoters will gladly take your money and tell you *what* to do, but then leave you on your own to work out the how-to and to deal with the challenges you'll face when trying to build your business or practice.

You may have experienced the same kind of let-down after spending thousands of dollars on programs that you *hoped* would hold the secret to your success. After more than one experience like this, I vowed to create a **true** mentoring program. One designed to help soul proprietors like you not only learn *what* to do to grow your business or practice, but to *show* you *how* to do it, and also be there to *support* you when you have challenges or questions.

That's why I created the **Inner Success Circle VIP Mentoring Program** and have sent you this private invitation to join. *You are one of a special few, as not everyone gets invited to join.* I am asking *you* because I believe that you are one of those people who is committed to doing the serious—but fun—work that creates the kind of income that makes it possible for you to help more people, and in turn, grow yourself into the kind of person you want to be. (It's not just about business.)

In your *Inner Success Circle Group Mentoring Program* not only will you get a world-class

and cutting-edge business and marketing education, you'll also discover up-to-date business development and marketing strategies to grow your business quickly, and you also get—and this is the best part of all—private coaching and consulting with me for individualized attention focused on just you and your unique business. *That's called support.* (And support is the missing ingredient in most other programs.) And it gets even better because you also get the benefit of having a group of your peers to offer advice, support, and accountability for those things you say you want to do.

If you've been working hard to grow your business and just aren't quite where you'd like to be yet; if your desire is to make fabulous money so you can always say "yes" to opportunities; if your desire is to create a business that makes a positive impact on the clients you serve and, ultimately, on the world, all while growing into the person you want to be, then I invite you to join me on this journey of inner discovery, practical business strategies, and personal growth so you can finally have the business or practice of your dreams.

And lastly, I don't believe you should have to pay an exorbitant sum to get the help you need. That's why this program is incredibly affordable for every Soul Proprietor who wants it.

My Best,
Marty

Wouldn't you love to have an experienced business mentor in your back pocket that you could call whenever you had a question about how to grow your business — without spending a fortune to do it?

These entrepreneurs already do...

"Before working with Marty in the Inner Success Circle, I was in a long standing holding pattern of no action. I just couldn't see how to make anything happen. In two months I committed to taking an action that I had talked about for years and then actually took the action and was successful. My project seemed small compared to the others in the group, but the important distinction here was that I never felt small or insignificant. I received support, ideas, feedback and encouragement throughout, and high fives when I succeeded. In this group I got information the way I needed it, the personal interaction I desired, and the accountability I required. The Inner Success Circle format of once a week group calls and multiple ways to access Marty is a winner for me. I feel that I am a respected part of the group no matter where I am in my business. Marty engages and connects with me on many levels and he still makes me feel important, no matter how busy he is." — Candy Kaiser, Candy Kaiser & Associates, New York

"We are active participants in Marty's Inner Success Circle. During our time as members, we have gotten at least one actionable idea to improve our business in each session. The opportunity to work one-to-one with Marty has been a goldmine. The other members of the Circle are creative and supportive — one, whom we did not know before joining the Circle — even wrote a chapter for our book. We view the Inner Success Circle as a great investment in ourselves and our business." — Earl Hadden, Small Business Success Project, North Carolina

"Clarity and focus of purpose are two of the most important things a business-owner needs to determine and work toward. Marty's Inner Success Circle is most decidedly aimed in that direction. The personal and professional sharing and discussion among the members is very pointedly aimed to that, along with weekly accountability and support. You will also come into contact with some of the most amazing entrepreneurs, soul-centered folks who will assist you in whatever way they can to help you accomplish your goals. The Inner Success Circle Program is one of the finest ways you can spend your time, with minimal expense, in helping to 'hold your feet to the fire' and discovering the company you truly want to be the owner of!" — Rhonda McNett, SOS by Rhonda, Washington
